

ICE CANCELLATION AND TURN BACK POLICY

Representative Teams will be allotted a practice schedule at the beginning of the season where permitted. This ice is the responsibility of the team. Based on City policy, Teams must return their ice to the City with 30 days' notice of use date in order to receive full refund or pay for the rental.

Should the team or BMHA administration be able to find another team to utilize the cancelled ice which would have been charged to the original user who cancelled with less than thirty (30) days' notice the original user will not be financially responsible for the facility charge.

ICE FLOODING POLICY

As per the agreement between the City of Belleville Recreation, Culture & Community Services Department and Belleville Minor Hockey Association, the Flooding policy for all exhibition and regular season league play will be as follows:

1. Floods will be done at the end of each game for all U8, and U9 games (this includes all levels "AA" and "AE").
2. Floods will be done between the 2nd and 3rd period for all U10, U11, U12 and U13 games. There will be an exception made for U10 & U11 teams when they are only slotted 1 hour for game play (this includes all levels "AA", and "AE").
3. Flood prior to the first U14, U15 and/or U16 & U18 game following BMHA usage of ice. The floods will continue every two periods for every subsequent U14, U15 and/or U18 & U18 hockey game.

This policy applies to contracts between Belleville Minor Hockey Association and the City of Belleville, and not individual users and the City of Belleville.

This policy is not in effect for OMHA or League playoffs. Playoff flood schedules are set up contractual agreements between the two participating centres.
